

STATE OF THE MAP

Brussels, Belgium
23-25th Sept. '16

There is only one community big and passionate enough to map the whole world. That's why we're working tirelessly to bring the annual OpenStreetMap conference – State of the Map – to Belgium in September 2016.

Founded in 2004, OpenStreetMap enables millions to contribute up to date information about their neighbourhood and locations. By making this geospatial

data available for free under an open licence, OpenStreetMap has revolutionized the way we see, use and sell map data and services.

State of the Map enables you to keep up to date with the changing geospatial industry. It provides a fantastic opportunity to meet the wide community of software developers, volunteers, and users. By bringing these groups

together in one place the future of OpenStreetMap is strengthened.

Your sponsorship helps keep State of the Map affordable to the widest possible audience. It provides you exposure to the OpenStreetMap community and a platform in which to present your organisation to those who continue to change the geospatial industry.

About State of the Map 2016

State of the Map is the global conference of the OpenStreetMap project. Each year we are delighted to be able to bring the community together to celebrate the achievements and look forward to the future.

Our data contributors are passionate about map data with many recognising the benefit maps bring to society. The many thousand volunteer contributors are now joined by commercial data contributors.

You will also hear first hand how data users are benefiting from OpenStreetMap. Each year we are amazed by the new and exciting ways our data is shaping so many organisations, government and the third sector.

Joining the data contributors and users are the OpenStreetMap software developers. Their devotion to improving our core tools – be they server, desktop or mobile based – continues to unlock

the potential of OpenStreetMap. And of course they will be joined by many experienced developers from the data user group.

The conversations that happen at State of the Map 2016, will further revolutionize open data and the geospatial sector. As a sponsor you will be at the heart of these conversations and gain the knowledge to take your business forward into the future.

Exhibition

State of the Map 2016 will provide a space for exhibition stands. This is perfect for showing off your services and providing a visible place to start conversations with delegates.

As a Platinum, Gold, or Silver sponsor, an exhibition space is included in your package. ~~For other sponsors we offer an exhibition upgrade for EUR 1000.~~ Please contact us if you are interested in making use of this opportunity.

Sold out

Sponsor scholarships Included

To ensure an accessible and diverse conference we provide world wide scholarships to professionals, researchers, students and accomplished community members.

As a sponsor you'll be helping to bring talented people to the conference who otherwise couldn't afford the trip. The more you able to sponsor the more scholars we can invite to State of the Map! Our scholarship program will be starting soon so keep an eye out for people you may want to recommend this to.

Don't see what you want? Contact us anytime at sponsors@stateofthemap.org; we are flexible and willing to work with you to design the sponsorship package that will fulfil your business needs.
